There has been no phase of the Behring Sea dispute so remarkable as that developed in the United States Supreme Court yesterday.

A more extraordinary move has never been made in that tribunal, and, looking at its diplomatic significance, its parallel is not to be found in the annals of diplomacy.

It is nothing less than an appeal by Great Britain from the executive to the judicial a discharge becomes possible. department of our government of a diplomatic issue still under diplomatic discussion. Great Britain has applied to the Supreme Court. It can only be taken as an amazing flank release.

matic usage or international courtesy.

This view is amply disclosed by the character of the proceeding. The avowed object is to get the whole Behring Sea dispute before the Supreme Court, to bring under review every question discussed by Mr. Blaine and Lord Salisbury, every point bearing on the issue, and to have the Court decide whether the United States or Eng-

To accomplish this a writ of prohibition is asked for to annul the judgment of the Alaskan District Court in the case of one of the seized Canadian sealers.

Two petitions are presented. One is by the owner of the vessel. That is merely formal.

The other is signed by Sir John Thompson, Attorney General for the Dominion of Canada, "with the knowledge and approval of the imperial government of Great Britain." That is, a petition by the British government-the same authority represented by Lord Salisbury in the diplomatic contro-

The petition of the owner of the vessel is regular and legitimate. It shows an aggrieved person seeking redress in a proper channel.

The petition of Great Britain is extraordinary. Its chief purpose cannot be to secure indemnity or protection for individual subjects. The Supreme Court affords in this instance no other or better remedy to the nation than to the subject. In such case it is usual for the person to act for him-

What Great Britain really seeks is an adjudication of the international right in dispute.

With such a right it is for diplomacy to to deal until diplomacy fails. To appeal to another tribunal while diplomatic discussion is still pending is a resort to tactics as inadmissible as they are extraordinary.

It is by no means clear that the Supreme Court will or can review and adjudicate this

But if in view of yesterday's development Mr. Blaine should curtly notify Lord Salisbury that this action, unless it be disavowed, will bring the pending diplomatic negotiations to an abrupt end, the English Minister could attribute the result only to his own move unprecedented in friendly interna-THE EXPENDITURES FOR PENSIONS for the tional intercourse and well calculated to

Protect the Adirondacks.

Mr. Beecher once said that there are times when a man must either swear or burst, and he preferred to swear. That is our case precisely.

Our Albany correspondent has recently been exposing the wretched inefficiency of the Commissioners having charge of our Adirondack forests.

We say inefficiency; we might very properly use a harsher term and it would not be nndeserved

These Commissioners were appointed to protect the woods from encroachments. Mr. Basselin, however, one of the Commissioners-sworn to do his duty to the State-went into partnership with a lumberman, whose | have conceived of such a monstrosity. croachments and destroy the forests with precious bit of idiocy and you will at once promptness and despatch by means of axemen and sawmills.

In doing that, Basselin was false to his trust. He should not be allowed to resign, but should be summarily bounced. His whole administration has been a humbug.

The other Commissioners-Cox and Knevals-have done nothing. They are poor sort of material, as weak as ditch water. with no more backbone than a jelly fish. They either don't see what is going on or haven't the courage to do their duty. In either case they are unfit for the positions they hold and should be told not to stand on the order of their going but to go at once.

Will the Governor remove these men, or has he too much political business on hand just now? If so, will the Legislature appoint a committee of investigation and straighten out this crooked condition of affairs? If you want the facts, gentlemen, read the columns of the HERALD. And if you seek for further information our correspondent is in your near neighborhood and will be glad to offer his services.

Preaching the Gospel a Crime.

The story of Rev. Mr. Penzotti, which we print elsewhere, shows that religious toleration has not yet penetrated Peru.

There is an old law in that Republic that no other public worship except the Catholic shall be allowed, but it has long since become a dead letter.

The Episcopal Church has held services regularly for twenty years and the Chinese have erected a Joss house. Neither of them has been interdicted. It did not seem dangerous, therefore, for an agent of the American Bible Society to preach to such congregations as he could gather.

He seems, however, to have had a terrible experience. He was not only arrested, but thrown into a filthy dungeon with the worst criminals. His pitiable condition excited a good deal of sympathy, and when his case was tried he was pronounced innocent of any breach of the law.

Peculiar customs prevail in Peru. It is not enough for a prisoner to be adjudged "not guilty" by the lower courts. He is held until a superior court confirms the judgment. Penzotti was therefore sent back to prison and to the vile companionship of thieves and murderers. The wretchedness of his lot is beyond description, and as the Superior Court will not sit for some months it is feared that he may die before Mr. Blaine has cabled to our representa-

tive in Peru to use his friendly influence unofficially-as Penzotti is an Italian-for a

Servile Democrats.

Do you notice the deathly silence which the democrats in Albany are maintaining just now?

It is one of those periods which have recurred at long intervals in the history of the world, when everybody holds his breath and painfully awaits the next development.

You see, Governor Hill is "wrasling" with his own soul. For him personally the situation is a grave one, and he is perspiringly working his way through a couple of knotty problems. Like Casar on the banks of the Rubicon he hesitates, ponders the dangers which beset him, with the terrible consciousness that the policy he decides upon may make or mar his political fortunes.

In the first place, the road to the White House is at present in a very bad condition. It looks as though he would be jolted to death before he got half way there and possibly dumped on the roadside, with nothing but his bruises for company. Grover Cleveland seems to have engaged a front seat on the regular mail coach, and if Hill makes the journey he must go by private conveyance, praying like blazes that Cleveland may be upset and so give his rival a chance to drive past him.

It is a solemn situation, partly because Hill has not full confidence that a prayer of that kind will be answered, and partly because he knows that a good many Americans are praying that he may himself get stuck in a mudhele and not catch a glimpse of the White House till 1896.

In the second place, the Governor is in a quandary about the Senatorship. If he takes it himself, he may find that he is shelved for all future time; if he chooses Weed, the people will be disgruntled, for their hearts are fixed on Dana; if he chooses Dana, that gentleman will go to Washington without pledges, and would as hef pound Hill's head as anybody's else if he goes astray; if he chooses a dark horse, some second hand political hack, who would be about as conspicuous in the Senate as a mosquito on an elephant's ear, our citizens would resent the insult at the polls.

Therefore he is sad and meditative, wakes up at night with a heavy chill, gets thinking it all over when shaving and gashes

his chin, is morose, gloomy and aphinxlike. And the democrats in Albany are waiting for their master to speak. They don't even dare to have any convictions of their own; are afraid to express an opinion lest the Governor may take offence; go about the streets on tiptoe, like nurses in a sick room. Ask them whom they would prefer and they put their fingers on their lips and whisper, "Hush!" When Hill whistles they will crouch at his feet, accept his dictum with a whine of acquiescence and vote like puppets for his nominee.

The Governor has the machine and the patronage. It would never do to displease him. Their only safe course is to put the collar on marked, "The property of David B. Hill; if astray or stolen please return to owner."

of Albany are dumb and timid just now. DEAR OLD MASSACHUSETTS has had a democratic Governor for nearly a week now and

she still lives. Harrison To Be Dictator.

Senator Quay introduced a new Force bill yesterday. It is just like Quay in every line. No one but a political boss could

Allow us to make a vivid extract from catch our meaning. Here it is :-

"When it shall appear to the satisfaction of the President of the United States"-just read those words again, "to the satisfaction of the President"-"that in any locality the provisions of this law cannot otherwise be executed it shall be his duty and he is hereby empowered to suspend there the writ of habeas corpus and to employ the armed forces of the United States, naval and military, for its enforcement," &c.

So, then, the President, as Commanderin-Chief of the Army and Navy, is to surround the polls with troops, order a gunboat or two to anchor within shelling distance, and insist on having a colored vote and a republican count.

We have no doubt that poor old Frisbie Hoar, who recently attended the funeral of the other bill, dreamed last night that he was in heaven, and Ingalls, of Kansas, fell into a fit of laughter which isn't yet over.

What a beautiful scheme this is! Quay, like little Jack Horner, put in his thumb and pulled out a plum and remarked, "What a big boy am I!"

Just think how nicely it would work. A republican President thinks South Carolina may go democratic. When "it appears to his satisfaction" that that will be the case he orders a couple of regiments and an ironclad to that locality, and after that if South Carolina doesn't vote for his renomination,

by Jove! he'll know the reason why. Oh, yes, that is a great bill, the best one yet. Why not pass it at once and make Harrison military dietator?

IT IS BOTH STUDIO and inexcusable to make political capital out of the arrest of the Delamaters.

Democrats can get along very well without gloating over the business misfortunes of a republican opponent. We have seen no evidence yet to show that the Delamaters were guilty of dishonesty, and until we do it is only half decent to give them the benefit of the doubt.

They have conducted a great enterprise and for many years successfully, giving employment to thousands of workingmen. If there is anything crooked in their doings the courts will find it out, and until the verdict is rendered we can afford to keep silence.

The cyclone which grazed New York yesterday was accompanied by an unusually low barometer as it whirled away over the New England coast. The "cold wave" following it, though quite severe, is not likely to give us a long spell of freezing weather unless soon reinforced.

A storm of marked intensity now in Manitoba will move east to the lakes to-day and cause a rise of temperature an this section by Thursday. Temperature fell in the United States yesterday; the chief minimum reported was 6 degrees below zero, at Fort Buford, N. D.; the chief maximum 68, at Key West. In this city and suburban districts to-day considerably colder, fair weather and brisk to fresh northwesterly and westerly winds will probably prevail. In the Middle States to-day considerably colder, fair weather and fresh westerly to northwesterly winds will prevail, and in Newfoundland fair, much colder weather, and fresh to brisk northerly and westerly winds. On Wednesday in this city and section and in New England fair to clear weather will probably prevail, with slightly lower, followed by slowly rising temperature and fresh variable winds, becoming brisk southerly and followed by cloudiness in the lake region, and on Thursday warmer, fair to partly cloudy weather and southerly to southwesterly winds, becoming brisk with the development of a storm advancing from the lakes toward the New England coast. European steamors now leaving New York will have fresh westerly breezes and fair weather to the Banks.

MONTCLAIR'S SOCIAL EVENT. A fashionable event was held last evening at the Montelair (N. J.) Club Hall-the fourth annual charity ball, which was a most brilliant affair. The ballroom was decorated with festoons of smilax and myriads of wax candles. The stage was smilax and myriads of wax candles. The stage was
transformed into a conservatory, from which the
onloosers obtained a view of the dancers.

Supper was served in the large diving room, and
a large number of well known society people were
present from New York and Brooklyn.

The dancing began at cloven P. M., and at midnight the scene was especially brilliant.

All the arrangements were admirable and reflected credit on the committees, which were composed of the following well known gentlemen.
